

Pricing

Peak 11 Media — Salt Lake City · Custom websites for local service businesses.

What it costs

SERVICE	PRICE
Website build (one-time)	\$400 – \$900
Care plan (hosting, edits, updates)	\$49 / month

The website build is a **one-time** charge. The \$49/mo care plan keeps the site hosted, secure, backed up, and lets the client request edits any time.

Founding rate

The first wave of clients get a **founding rate of \$400 – \$600** for the build — locked in as a thank-you for being early. After the founding window the build settles into the standard \$700 – \$900 range depending on scope.

How it's positioned on a call

- Lead with a **free sample** — no charge to see the site first.
- The client only pays once they love it.
- Build is one-time; the \$49/mo keeps it live and editable.
- Add-on: **QR digital menu** for restaurants — \$150 – \$300 one-time.

Why it's priced this way

A custom, mobile-first, fast site with the client's real photos and reviews — built and live in days, not weeks. Priced to be an easy yes for a small local business while the \$49/mo builds predictable recurring revenue.
