4. REVIEWS TO FEATURE (verbatim, real)

Eileen Walker (Google, 9 months ago): "Alex was wonderful to work with. He was very professional and very informed of the products for our new roof. He was also very patient as I took a very long time looking at numerous samples for the roof. His crew showed up on time, finished on time and the clean up was exceptional. We are so happy with our new roof!"

C. Bunt (Google, Local Guide, 8 months ago): "Alex and his team were great to work with. I've used them on several projects over the years and they have been consistent every time. Alex was quick to go out and evaluate the roof, provided a fair and competitive bid within 24 hours, completed the work by the date he promised and for the price he quoted. Thank you!"

Ken P. (Google, 6 months ago): "Avalanche Roofing has excellent customer reviews. How do they do it? Mario, Alex and Richard Martinez have old fashioned values like HARD WORK,

HONESTY and INTEGRITY. If you are looking for an honest hard working contractor this is your [company]."

Kathy K. (BuildZoom, Jun 26 2024): "Needed my roof done quickly and affordable. They met my expectations. The roof looks great and had it all tore off and shingles back on in one day!"

Dean J. (BuildZoom, Oct 9 2018): "I was impressed with their quality of workmanship... Alex and his team went the extra mile to insure the quality of work was to my expectations."

Stephen H. (BBB): "Hire them! Great price, fabulous work, honest people — loved [name] and all the workers."

6. PHOTO INVENTORY (all in assets/)

All downloaded from the Avalanche Roofing Google Maps business profile and verified to open. High-res (1600px) unless noted.

FILE	SHOWS	BEST USE	NOTES
avalanche-trucks-branded.jpg	Two Avalanche-branded trucks (white wrap, red/black "AVALANCHE" lettering)	About / hero / contact band	1600×2133. Definitively theirs (logo visible). Brand-color reference.
shingle-roof-mountain-backdrop.jpg	Finished architectural shingle roof, neighborhood + mountain view	Services / gallery / hero	1600×1200

FILE	SHOWS	BEST USE	NOTES
shingle-roof-vents-closeup.jpg	Close-up of new shingle roof with vents, fall trees	Gallery / repair section	601×798 (smaller)
new-construction-roof.jpg	New-construction home, fresh roof on sheathed house	Gallery / "new builds"	1600×1200
charcoal-shingle-roof-mountains.jpg	Charcoal/black shingle roof, white house, Wasatch backdrop	Hero candidate / gallery	1600×900

5 usable photos. All from the Maps profile. The trucks photo is the only one with the visible Avalanche logo — the four roof photos appeared in their profile gallery and carry no competitor watermark, so they're treated as theirs, but ASK Alex to confirm + supply more.

Discarded (3): Google's Maps gallery also surfaced 3 competitor-watermarked images (TST Roofing, EZ Roofing Utah, Walker Roofing) — these were deleted, NOT used, because they are not Avalanche's work.

No logo file captured — Facebook/Instagram blocked automated access. The logo is visible on the trucks photo (use as reference or ask owner for a clean vector/PNG).

7. BRAND / VISUAL IDENTITY

From the branded-trucks photo (their actual fleet wrap): - **Base:** White - **Primary accent:** Red (bold) - **Secondary:** Black / charcoal - **Wordmark:** "AVALANCHE" in bold uppercase - Theme fits the name: mountain/snow/avalanche vibe — clean white + cool charcoal with red call-to-action accents works perfectly.

Suggested palette for the site: - White #FFFFFF (background) - Charcoal/near-black #1C1C1E (text, headers) - Avalanche red #C8202E (accent / CTAs) — tune to the exact truck red once a clean logo is in hand - Cool gray #5A6470 (secondary text) - Optional alpine blue #2E5A8A (accent (mountain/sky))

Tagline found in a directory: "New roof installation, repairs, or regular maintenance — we've got you covered!"

8. CURRENT SITE — VERDICT (the thing to beat)

avalancheroofingservices.com is effectively broken. Multiple fetch attempts (direct + proxy) returned only a "Loading... Please wait" screen or timed out after 60s — it never renders real content. The Wayback Machine has **zero archived snapshots** of the domain ever, meaning search engines have never successfully crawled it.

Weaknesses to beat: - **Doesn't load** for users or Google — likely killing all organic search visibility. - **No indexable content / no SEO** — their entire web presence currently lives on third-party directories (Google, GAF, BBB, BuildZoom, KSL, Yelp), not their own domain. - **No mobile experience** (nothing renders to be responsive). - For a 4.9★, GAF-certified, 9-year business, the site is a massive missed opportunity — a fast, modern, mobile-first one-pager with their real photos, reviews, and a click-to-call CTA would instantly outperform it.

Pitch line for Alex: "Your reviews are 4.9 stars but your website doesn't even load — every person who Googles you and clicks your site hits a dead page. Let's fix that this week."

10. ASK ALEX ON THE CALL (gaps to close)

1. **Correct address** — 3755 W Rancho Vista Ln vs. 3757 S Brookhurst Cir? Which is current/preferred for the site?
2. **Clean logo file** (vector/PNG) and exact brand red — only have it on the truck wrap.
3. **More/better job photos** — we have 5; want 8-12 of their best before/after roofs, crew shots, completed jobs. Roofers' own roof photos are the strongest asset.
4. **Confirm services** — is the flat/commercial line (TPO/EPDM/PVC/metal/IB) still offered? Do they do siding/skylights, or roofing+gutters only?
5. **Insurance / warranty claims** — fully insured? GAF System Plus warranty offered on every job? (so we can state it accurately)
6. **Preferred email** — Yahoo address, or set up a domain email for the new site?
7. **Best CTA** — phone call, contact form, or "free estimate" request? Any preferred booking flow.
8. **Tagline** — keep "we've got you covered" or want something new.
