

Peak 11 Media — Cold Outreach Batch 1 (DRAFT — DO NOT SEND)

Rewritten 2026-06-11 (v2) per Nate's direction: "more based off shit proven to work that also feels genuine and not ai." **23 emails.** All bodies rebuilt around reply-rate data (see "Why these read the way they do" below): 40-80 words, one observation, one offer, interest-based CTA, no meeting ask, no bullet lists, no marketing-speak. Demo emails (13, 14) now link the **-v3** demo URLs. Verify-first flags carried over from v1.

Why these read the way they do (research basis)

- **Length:** Best-performing cold campaigns run under 80 words (Instantly benchmark data); 50-75 word emails pull ~12% replies vs ~2% for 200+ words (BuiltForB2B data via Aerosend). Every body below is 40-80 words.
- **Subject lines:** Gong's analysis of 85M cold emails: 1-4 words, lowercase, zero selling language hit 58%+ opens; salesy words cut opens 17.9%. All subjects below are 2-5 words, lowercase, specific.
- **CTA:** Gong Labs study of 304K emails: interest-based CTAs ("worth a look?") outperform meeting-request CTAs, which run ~44% worse on replies. So no more "reply with a time for a 10-minute call." Sell the conversation; the call ask comes after they reply.
- **Voice:** Plain text from a personal Gmail, no perfect-grammar polish, no bullets, no em-dashes. The stuff that reads like an internal note from a real person gets opened and answered; the stuff that reads like a tool gets archived.

Sending Plan

Mailbox: consciousmirage@gmail.com. Aged, warmed-up mailbox (years of normal Gmail activity, already hosts the forge-demos GitHub Pages). Far better deliverability than a brand-new Peak 11 domain with zero sending history. Set the Gmail display name to **"Nate — Peak 11 Media"** so the inbox line reads right.

Mailing address: RESOLVED. Footer address is **5330 S Riley Ln, Murray UT 84107** in every email. ⚠️ One sanity check before send: that street address also appears in leads-qualified.csv as Central Electric Co's address (Email 3 goes to them). If it's a shared multi-suite building that's fine,

but Email 3's footer would show Central Electric their own address, which will read strange. Confirm the address situation before Email 3 goes out, or hold Email 3.

Pacing + call pairing (per Nate): sends go out the **same morning as Nate's call block**, so emails and calls hit on the same days. Two send days: emails 1-12 on call day one, 13-23 on call day two, spread 2-3 per hour, 9am-3pm MT, Tue/Wed/Thu best. Max 20-30/day from Gmail. The 7 phone-only demo businesses (see bottom) slot into the same call blocks: email leads get the email, phone-only leads get the call, same day, same pitch.

Deliverability: Plain text, no images, no tracking pixels. Each email is unique (different opener, different wording), which avoids Gmail bulk-similarity filters. Only emails 13 and 14 carry a link (their live -v3 demos); everything else is link-free. Three addresses came from Wayback archives of dead sites (Alderations, Dedication Roofing, Nolan's Handyman): MX verified live, but expect higher bounce odds; if one bounces, skip it, a bounce or two won't hurt the mailbox.

Approval needed before sending

1. The voice/copy as rewritten (this is the thing Nate asked for, judge it below).
2. The Central Electric address overlap above (hold or send Email 3).
3. The flagged leads: verify-first on UT Fence Solutions (still operating/licensed?) and G.W. Construction (DOPL license status); morning-of re-check on VIRIDIS SSL; caveats on On The Move (Oregon parent may control web decisions) and the three Wayback-recovered addresses (skip on bounce).
4. Confirm "build it this week" is a deliverable pace, since every reply triggers a demo build (8 are already built, which helps).

Once approved, Claude sends from consciousmirage@gmail.com per the pacing above.

Email 1 — UT Fence Solutions ⚠ FLAG

To: utfencesolutions@gmail.com **Subject:** your old domain

Quick heads up, your old domain (utfencesolutions.co) lapsed and it's showing gambling spam now. Anyone who googles you and clicks the old link lands on that.

I build websites for fence companies here in Salt Lake. Happy to put up a clean new one this week, free to look at, you only pay if you keep it.

worth a look?

Nate Peak 11 Media, Salt Lake City 5330 S Riley Ln, Murray UT 84107 if you don't want to hear from me again just reply stop

⚠️ **Verify before sending:** Research notes show HomeAdvisor listings only updated through 2025. Confirm the business is still operating and licensed before this goes out.

Email 2 — Beehive Appliance

To: info@beehiveappliance.com **Subject:** beehive's website

You guys have been fixing appliances in Salt Lake since 1946, which is awesome. But the website looks like it was built in 2004 and the footer still says 2021.

I build sites for local service businesses here in Salt Lake. I'll build Beehive a new one this week for free, you only pay if you want to keep it.

want me to send it over?

Nate Peak 11 Media, Salt Lake City 5330 S Riley Ln, Murray UT 84107 if you don't want to hear from me again just reply stop

Email 3 — Central Electric Co Inc ⚠️ ADDRESS FLAG

To: service@central-electric.com **Subject:** your site on mobile

Tried pulling up central-electric.com on my phone and it barely works, and that's where most people are searching now. Kind of a shame for a company that's been wiring Salt Lake for 100 years.

I build websites for electricians here in Salt Lake. I'll build you a modern one free this week, you only pay if you keep it.

worth a look?

Nate Peak 11 Media, Salt Lake City 5330 S Riley Ln, Murray UT 84107 if you don't want to hear from me again just reply stop

 **Flag:** Footer address matches Central Electric's own street address in the lead CSV. Resolve before sending (see Sending Plan).

Email 4 — Salt Lake Lawns

To: kiley@saltlakelawns.com (cc/alt: brad@saltlakelawns.com) **Subject:** your website

Kiley, your site's a stock GoSite template right now and honestly it doesn't do your reviews justice. People comparing lawn companies in Taylorsville are judging off the website alone.

I build sites for lawn and landscape guys here in Salt Lake. I'll build you a real one this week for free, you only pay if you love it.

want me to send it over?

Nate Peak 11 Media, Salt Lake City 5330 S Riley Ln, Murray UT 84107 if you don't want to hear from me again just reply stop

Email 5 — Moving Connections

To: support@movingconnections.com **Subject:** your website

Bart, you've been moving people since 1985 with an A+ BBB rating, but the site hasn't kept up. Next to the newer movers in town it makes a 40 year company look behind.

I build websites for local service businesses here in Salt Lake. I'll build you a new one free this week, you only pay if you keep it.

worth a look?

Nate Peak 11 Media, Salt Lake City 5330 S Riley Ln, Murray UT 84107 if you don't want to hear from me again just reply stop

Email 6 — VC Painting LLC

To: office@vcpaintingllc.com **Subject:** vc painting website

Victor, 4.9 stars on Thumbtack and 20+ years painting, but the website looks like 2014. People checking you out online aren't seeing the company those reviews describe.

I build sites for painters here in Salt Lake. I'll put one together for you this week, free to look at, you only pay if you want it.

want the link when it's done?

Nate Peak 11 Media, Salt Lake City 5330 S Riley Ln, Murray UT 84107 if you don't want to hear from me again just reply stop

Email 7 — Regy's Painting

To: Regypainting@outlook.com **Subject:** your website photos

Reggie, one of your reviews calls you "the best contractor I have ever worked with." Then your website is a generic template with stock photos that could be anybody's.

I build sites for painters here in Salt Lake. Let me build you one that actually shows your work, free this week, you only pay if you love it.

worth a look?

Nate Peak 11 Media, Salt Lake City 5330 S Riley Ln, Murray UT 84107 if you don't want to hear from me again just reply stop

Email 8 — Smart Specialty

To: rob@smartspecialtyremodeling.com **Subject:** your website

Rob, you've been remodeling Salt Lake homes since 1982 and the website shows none of it. 40+ years of kitchens and basements with no real portfolio online.

I build sites for remodelers here in Salt Lake. I'll build Smart Specialty a new one this week for free, you only pay if you keep it.

want me to send it over?

Nate Peak 11 Media, Salt Lake City 5330 S Riley Ln, Murray UT 84107 if you don't want to hear from me again just reply stop

Email 9 — Affordable Renovation Solutions

To: cody@affordablerenovationsut.com **Subject:** small thing on your site

Cody, small thing you might not have noticed. Your website's browser tab still says "HOME | Mysite," the default Wix placeholder. With a 5.0 on HomeAdvisor that unfinished site is probably costing you jobs.

I build sites for contractors here in Salt Lake. I'll build you a finished one free this week, you only pay if you love it.

worth a look?

Nate Peak 11 Media, Salt Lake City 5330 S Riley Ln, Murray UT 84107 if you don't want to hear from me again just reply stop

Email 10 — VIRIDIS Lawn Care ⚠️ FLAG

To: viridislawnpest@gmail.com **Subject:** security warning on your site

Kagen, both your sites are throwing "your connection is not private" warnings right now (expired SSL certs). Most people see that and bail, which is worse than no site at all.

I build websites for lawn care companies here in Salt Lake. I'll build you one solid secure site this week, free, you only pay if you keep it.

want me to send it over?

Nate Peak 11 Media, Salt Lake City 5330 S Riley Ln, Murray UT 84107 if you don't want to hear from me again just reply stop

⚠️ **Minor flag:** Re-check SSL status the morning of send. If Kagen has renewed the certs, the opener is wrong and needs a rewrite.

Email 11 — On The Move Movers LLC ⚠️ FLAG

To: onthemovemoversllc@gmail.com **Subject:** a utah website

Nikki, your website's branded for Oregon right now with the Riverton operation squeezed onto one page. Somebody searching for a local Utah mover lands there and it doesn't look local at all.

I build sites for moving companies here in Salt Lake. I'll build you a dedicated Utah one this week, free to look, you only pay if you want it.

worth a look?

Nate Peak 11 Media, Salt Lake City 5330 S Riley Ln, Murray UT 84107 if you don't want to hear from me again just reply stop

⚠️ **Minor flag:** The Oregon parent company may control web decisions, not the Utah branch. If Nikki replies, confirm she has authority before building.

Email 12 — Aegis Heating and Air

To: info@aegisheatingandair.xyz **Subject:** your .xyz domain

Quick one, your site lives on a .xyz domain with template copy, and both of those make people (and Google) trust you less than 15 years of HVAC work deserves.

I build websites for HVAC companies here in Salt Lake. I'll build Aegis a proper one this week, free, you only pay if you keep it.

Email 13 — Eagle Electric Inc 🔗 LIVE DEMO (v3)

To: office@eagle-electric-inc.net **Subject:** eagle electric website

Kurt, if you google Eagle Electric right now the only site that comes up is a parked domain some squatter's trying to sell. 39 years in business and nothing online that's actually yours.

I build websites for electricians here in Salt Lake. Went ahead and built one for you already, it's live:

<https://consciousmirage.github.io/forge-demos/eagle-electric-inc-v3/>

Nate Peak 11 Media, Salt Lake City 5330 S Riley Ln, Murray UT 84107 if you don't want to hear from me again just reply stop

Email source: ZoomInfo/LeadIQ listings, corroborated 3x (their site is the squatted domain, so no first-party confirmation possible).

Email 14 — Lavo Construction LIVE DEMO (v3)

To: lavoconstructionllc@gmail.com **Subject:** built lavo a website

Oscar, your Yelp reviews are great but the only place to find Lavo online is Facebook, and most homeowners comparing remodel bids go with the guy who has a real website.

I build sites for contractors here in Salt Lake. I already built one for Lavo so you can just see it:

<https://consciousmirage.github.io/forge-demos/lavo-construction-v3/>

\$900 flat if you want to keep it, nothing if you don't.

Email 15 — Rocky Mountain Collision of Murray

To: jake@rockymountaincollision.com **Subject:** your shop's website

Jake, 973 reviews, 100% recommend, A+ BBB, and the website's a stock Wix template with pages still named "/blank-1." The shop's reputation is way ahead of what people see online.

I build websites for shops here in Salt Lake. I'll build you one that matches, free this week, you only pay if you love it.

To: michael@remodelerinc.com (cc/alt: vicki@remodelerinc.com) **Subject:** no phone number listed

Email 17 — Ace One Electrical

To: info@aceoneelectricians.com **Subject:** your website

Your site's a single bare page right now. No photos, no reviews, nothing about who you are. For a 24 hour electrical shop in this valley that's leaving calls on the table every day.

I build websites for electricians here in Salt Lake. I'll build Ace One a full one this week, free to look, you only pay if you want it.

Email 18 — Famous Appliance Service

To: dm.famous19@gmail.com **Subject:** your website

You guys cover 50+ cities on the Wasatch Front but the website design hasn't been touched in close to a decade. People comparing repair companies notice that stuff.

I build sites for service businesses here in Salt Lake. I'll build Famous a modern one free this week, you only pay if you love it.

Email 19 — Allied Painters Inc.

To: info@alliedpainters.com **Subject:** your site won't load

Heads up, alliedpainters.com is stuck in a redirect loop right now. It won't open in any browser. 20 years of painting across Utah and Idaho and anyone who clicks your link gets an error.

I build websites for painters here in Salt Lake. I'll build you a working one this week, free, you only pay if you keep it.

Email 20 — Alderations ⚠️ FLAG

Email 21 — Dedication Roofing ⚠️ FLAG

To: dennisj@dedicationroofing.com **Subject:** your site is 404ing

Email 22 — Nolan's Handyman Services ⚠️ FLAG

To: njabczynski@gmail.com **Subject:** your site is down

Nolan, nolanshandyman.com is dead right now, so anyone who finds your listing and clicks through gets nothing. For a one man shop the website kind of is the storefront.

Email 23 — G.W. Construction & Remodeling ⚠ FLAG

To: guywaymanconstruction@gmail.com **Subject:** your website

Guy, BuildZoom has you in the top 18% of Utah contractors, but the website's a sparse template that hasn't been touched since 2022. It undersells 25 years of work.

have no published email anywhere (BBB, ASA, SLHBA, Birdeye, Wayback, WHOIS all checked) and go into Nate's same-day call blocks instead:
